Technical: Python, Java, JavaScript, C, C++, C#, HTML/CSS, SQL (Postgres), YAML, Node.js

Tools: VS Code, Git, Docker, Claude Code, Jira, Grafana, Unity, Eclipse, LaTeX, Figma, Miro, Adobe Premiere Pro, Final Cut Pro X

Languages: Fluent in English; Conversational Proficiency in Vietnamese

EDUCATION

THE PENNSYLVANIA STATE UNIVERSITY

Bachelor of Science in Computer Science

Cumulative GPA: 3.801; Dean's List 2023-2024

University Park, PA

August 2023 - May 2024

UNIVERSITY OF COLORADO, BOULDER

Bachelor of Science in Computer Science

Cumulative GPA: 3.637; Dean's List 2024-2025

Boulder, CO

August 2024 - May 2027

WORK EXPERIENCE

FICO

Software Engineering Intern

Remote

May 2026 – August 2026

- Engineered an AI agent/GitHub workflow to automate Jira ticket triage and routing, cutting resolution time from 30–90 minutes to 2–15 minutes per ticket
- Eliminated a manual process that consumed up to 40% of engineers' time, freeing our team of 20 to focus on higher-value technical work
- Built a scalable, reusable framework designed for long-term adoption, positioning the tool to be maintained and enhanced by future teams

TRUCKSTER

UI/UX Researcher

Centennial, CO

September 2024 – January 2025

- Conducted competitive intelligence by researching rival companies under aliases, cataloging findings in a structured tracking table and design board to benchmark features and user experience in Miro
- Delivered actionable recommendations to Truckster ownership based on competitor analysis, driving improvements to site design, functionality, and customer experience

BROOMFIELD AUDITORIUM

Audio Engineering Assistant

Broomfield, CO

August 2021 – January 2022

- Trained under lead technician Mathew Kitchen to master technical theater operations across live productions
- Engineered sound and managed audio, lighting, and recording equipment for multiple live shows, ensuring high-quality production for audiences

ACTIVITIES

KAPPA THETA PI

Professional Technology Fraternity

University of Colorado, Boulder

September 2024 - Present

- Served as VP of Social Engagement (Fall 2025), organizing events and initiatives to strengthen member connection and community
- Develop personal projects each semester aligned with individual passions, interests, and career goals
- Sharpen professional skills including interviewing, elevator pitches, teamwork, and workplace professionalism
- Engage with industry guest speakers on recruiting, tech market trends, and the broader industry landscape

NATIONAL STUDENT LEADERSHIP CONFERENCE (GAME DESIGN)

Summer Career Program

University of California, Los Angeles

July 2022

- Created an original game in Unity by applying C# programming, level design, and animation, resulting in a fully playable experience that challenged players with original level design and custom mechanics, showcasing end-to-end development skills
- Connected with industry professionals and toured studios including EA and Industrial Toys, gaining firsthand insight into game production and the broader industry

TEDx YOUTH EVENT

Speaker

Cherry Creek, CO

October 2021 - May 2022

- Delivered a TEDx Talk on achieving goals through the Japanese concept of Ikigai, earning 3.7K+ views on YouTube after training under Colorado Representative Dafna Michaelson
- Collaborated with fellow speakers to workshop and refine talks through constructive peer feedback
